TABLE BARRIER

- Sleek and modern, desktop privacy panel provides a barrier while still allowing full view.
- It separates the work for eating area from others to shield against cough or sneeze.
- Table Barrier allows for personal space for each person protecting against any germs or viruses.
- Each panel acts as a moveable partition to provide separate space and block distractions. The panels can be moved easily and remounted.

- Table barrier works well for cafes, restaurants, hotels as well as offices. With defined modular space, seating area on the table can be easily adjusted.
- Feet or Clamp options are available for stability of the divider. Rubber pads on the clamp and feet protects the table and hold divider in place. Reverse clamp and support foot for installation on front or back of table surface.
- Silver anodised aluminium profile, steel feet and clamp are resistant against food or fizzy drink spills. It is easy to clean even the feet and clamp grooves filled with any food or drink. Simply take of the feet or clamp and clean the grooves with a damp cloth.

Clamp tolerates +/- 20 mm differences between table and frame.

CLAMP KITS

- When clear or frosted acrylic panels or wood chalk boards required to divide or shield tables or counters, a clamp is needed to secure the panels on to it.
- MT Displays offers two clamping options: Edge Clamp and Mid-Section Clamp.
- Dividers are secured the to the edge of a table, cashier or work bench with a secure and elegant metal clamp. Being removable and having soft pads (EVA) clamps can be placed anywhere easily on the edge of the counter.
- Partitions can be easily removed and relocated
- Clamp with a Clear Panel offers social distancing as effective sneeze guard to help protect people on either side of the screen from the transmission of airborne viruses and germs.

- If Frosted Panel used with a clamp, it also provides privacy.
- Wood Panel with clamp is also simple solution for menu boards or price list.
- Both Edge or Mid- Section Clamps are suitable for a variety of office styles, helping to reduce workplace disturbances and creating private workstations.
- Moreover it works well for offices, cashiers, medical facilities, call centres and education and testing centres.
- They are normally used in pairs.

CLEAR WALL SEPARATOR

- It is non-yellowing, lightweight and highly impact-resistant.
- For added durability, our translucent wall panels are fixed to the anodized extruded aluminum channels with a silicone wick.
- Since the 2020 pandemic started, clear wall dividers will be a crucial tool for managing the spread of COVID-19 and other infectious diseases in several facilities.
- When used as Check-In Barrier, they are perfect for any medical facility right at the reception area. In hospitals, primary care facilities, and dentist offices, clear room dividers act as a line of defense from infectious diseases spreading to either medical staff or patients.
- The transparent barrier allows communication to continue on either side of the partition as well. If there are multiple patients at reception, the Clear Dividers can act as a sneeze guard and also a form of crowd control between people.
- Since these dividers are freestanding and portable, they can easily be moved to different areas of the facility as needed.
- They are stackable, taking less space when not used.
- Rolls on leveling casters optional or can be fixed on ground by using the holes on the feet.
- Panel Material: Durable 1mm clear PET, fire rated B2 (DIN EN ISO 11925-2 & DIN EN 13823)
- Frame Material: Extruded and anodised aluminum
- Frame Finish: Black powder-coat paint, silver anodised or white powder-coat paint
- Easy to clean. Clean with substances that contain alcohol.
- Simple assembly in few minutes by single person. Installation can be undertaken by any member of staff without specialist tools or know-how.

USSWDN0000	Sanitizing Dispenser Vol 2 for Wall & Glass, 1000 ml. (without gel)	0,480 kg	130 X 140 X 290 mm

DESKTOP DISPENSER VOL2

- Desktop Dispenser is a good solution for countertop hand sanitising needs. It offers hand washing facilities around your business to help protect staff and customers from the spread of infection. It is supplied with a refillable 1l bottle and pump top mechanism to provide quick and easy access to disinfection.
- Made of shutter-proof ABS, Dispenser is fixed on anodised aluminium (51x25 mm). The heavy steel base is 150x200 mm and provides stability to the stand. To avoid scratches on the counter, the steel base has soft feet. It is designed for use in counter standing form without the need for any permanent fixing.
- Dispenser bottle has spring loaded locking system to prevent foreign access.

- Lever stays open for easy access during change of bottle. Pump is placed into the nest under the lever to avoid pump moving around. Pump nozzle faces 120° downwards allowing alcohol /gel into hand avoiding to spill over or wasting alcohol/gel.
- Drip tray included with Desktop Dispenser, inserts into the holder with a basic locking system to prevent loosening.
- The use of a Desktop Dispenser alcohol / gel holder means that there is no need for access to water or paper towels to maintain effective hand hygiene.
- Packed as complete in 1 box. No assembly required
